

Richard Parsons

This website is essentially about my search for success, online. I describe myself as an Internet Enthusiast and my endeavours are becoming increasingly frenetic! Perhaps you will find something worthwhile in these pages? Do, please, join my ['Express Email Marketing'® database](#) and I'll do my best to keep you up-to-date with progress. They do say, 'A problem shared is a problem halved' and so, together, it might be easier to detect the ['Snake-oil Salesmen'](#); [my version here](#). I believe strongly in building off-line business relationships through localised business oriented meetings to enhance the value of [on-line networking](#).

The following webpages illustrate some of the ideas which have influenced my thinking over the past 4,046 days since I registered [FIRSTALPHA LIMITED](#) at Companies House, Cardiff, CF14 3UZ. During this time I've been responsible for registering in excess of 360 Internet Domain Names. A business objective is to positively influence the aspirations of individuals and the owners of small businesses. To this end, I intend to redefine '[Business Process Management](#)'.
